AMM tours Manitoba's Parkland Region

L-R: Vice-President Brad Saluk, Vice-President Chris Ewen, District Director Jim Manchur, District Director Ron Kostyshyn
*Click **HERE** to download photo*

November 5, 2021 – The Association of Manitoba Municipalities (AMM) concluded meetings yesterday with local Councils from Manitoba's Parkland Region. The AMM makes it a priority to meet one-on-one with each of its member municipalities at least once during each four-year election cycle.

"We heard loud and clear that municipalities are uniquely positioned to lead our province's economic recovery," stated AMM President Kam Blight. "However, more provincial supports are needed along with reduced red tape and practical regulations to help communities grow and attract investment."

"The pandemic has clearly highlighted the need for enhanced broadband connectivity and cell service throughout the Parkland. Sustained network infrastructure upgrades are critical for improved public safety, increasing competitiveness of businesses, and maximizing job opportunities," noted Ron Kostyshyn, Reeve of Mossey River Municipality and AMM Parkland District Director.

"Policing and community safety were also key themes during the meetings. Since retroactive pay increases for RCMP members will negatively impact municipal budgets, these costs should be fully absorbed by the federal government as municipalities were not consulted and excluded from negotiations," added Jim Manchur, Councillor from Gilbert Plains Municipality and AMM Parkland District Director.

Meanwhile, several Councils raised concerns regarding excessive costs resulting from provincial waste management regulations. Increasing landfill costs and regulatory requirements are straining many municipal budgets at a time when municipalities are focused on COVID-19 recovery efforts.

The AMM delegation met with the Municipality of Roblin, RM of Mountain, Municipality of Swan Valley West, Town of Swan River, Municipality of Ethelbert, Mossey River Municipality, RM of Lakeshore, and Municipality of Ste. Rose.

Members of the AMM delegation included President Kam Blight, Vice-Presidents Brad Saluk and Chris Ewen, Parkland District Directors Ron Kostyshyn and Jim Manchur and Executive Director Denys Volkov.

The AMM represents all 137 municipalities in Manitoba.

Subject: MEMBER ADVISORY - AMM COVID-19 Vaccination Policy Template

ASSOCIATION OF MANITOBA MUNICIPALITIES

MEMBER ADVISORY

COVID-19 Vaccination Policy Template

November 9, 2021 – Pleased be advised that the Association of Manitoba Municipalities (AMM) has developed a draft template policy for municipalities considering adopting COVID-19 vaccination policies. The policy can be adapted to address the unique circumstances of each municipality.

AMM COVID-19 Vaccination Policy Template

COVID-19 vaccination policies range from completely voluntary, with no consequences for non-vaccination, to completely mandatory and termination of employment for failing to be vaccinated. This one takes a reasonable and middle of the road approach, strongly encouraging vaccination but providing for measures such as masking, testing at the employee's expense, changed duties, working remotely, leave without pay, and termination as a last resort (although not for cause) if an employee is not vaccinated.

This policy also provides for accommodating Province of Manitoba medical exemptions, with testing to be paid for by the municipality in such a situation based on Human Rights Code considerations but does not provide for

religious exemptions. COVID-19 vaccination religious exemptions are not formally recognized by the Province in its vaccination regulations and municipalities may wish to avoid religious considerations as well, despite there being possible Human Rights arguments. We recommend these be dealt with on a case-by-case basis if needed.

As an employer rule, municipalities will need to give their employees reasonable notice before implementing the policy and time to comply with it. As each municipality deals with its own circumstances, the following may also need to be considered and the policy adapted accordingly:

- Is the municipality unionized? If so, collective agreement terms will need to be considered.
- Should the policy be extended to apply volunteers such as fire fighters?
- Should the vaccination requirements apply to all municipal employees or to certain designated positions only, such as front-line workers with continuous contact with the public and those with ongoing contact with vulnerable populations such as children or the elderly?

Since this a rapidly developing area, any policy adopted by a municipality will also need to be reviewed and adapted regularly to reflect updated and evolving public health knowledge and legal considerations.

A municipality should consider seeking legal advice if it is dealing with a request for an accommodation based on religion or if it is considering putting an employee on leave without pay or terminating them for failing to comply with the municipality's COVID-19 vaccination policy.

Sincerely,

Denys Volkov
Executive Director

Subject: AMM Member Advisory - MI seeking municipal feedback on Gravel Road and Noxious Weed Control Agreements

MEMBER ADVISORY

MI seeking municipal feedback on Gravel Road and Noxious Weed Control Agreements

NOTE: This message is being sent on behalf of Manitoba Infrastructure

November 10, 2021 - In June 2021, Manitoba Infrastructure (MI) provided information to municipalities about Gravel Road and Noxious Weed Control Agreements. As mentioned in the attached member advisory, there have been many changes to the agreements and processes.

As we continue to evolve and improve, MI will be reviewing the agreements. We are asking any participating municipalities to provide any feedback, comments or questions about the Gravel Road and Noxious Weed Control Agreements to your assigned Maintenance Superintendent by **December 10, 2021**. This feedback will help create an improved process as we move forward.

Manitoba Infrastructure also would like to invite any municipality interested in joining in a Gravel Road Agreement for the next fiscal year (April 1, 2022) to reach out to your assigned Maintenance Superintendent for more information. Participation in these agreements with MI is voluntary and entirely at the individual municipality's discretion.

Thank you, and we look forward to working with you to serve all Manitobans better.

Sincerely,

Denys Volkov
Executive Director

PSCS Update

The transition from FleetNet to the Public Safety Communications Service (PSCS) is mostly complete, with a few remaining Public Safety Entities (PSEs) scheduled to complete their network transition between October and December 2021. There are currently over 9,500 active radios throughout Manitoba on the PSCS network.

Fleetnet Decommissioning

Bell MTS has begun decommissioning its FleetNet 800 network where it is no longer required to support emergency operations. We expect the decommissioning to be completed between October and December 2021 as the final groups transition to the PSCS network.

Monthly Reports

Since July 1, 2021, Bell has not sent invoices for Fleetnet services and the Government of Manitoba pays for your PSCS service. Bell will continue to send you a monthly Equipment Report that itemizes your service on the network.

Radio Purchases

Bell has extended the special discount on Motorola APX™ radios to December 10, 2021. You will continue to be able to take advantage of a 25% discount off Motorola Canadian list price on Motorola APX™ radios and a 15% discount on Motorola accessories. This special offer is available to PSEs that purchase approved radios from Bell for use on the PSCS radio network.

Please contact Bell's Service Desk or your Bell Service Partner for a consultation and a Bell quote.

PSCS Radio Support

Please contact the Bell Service Desk or a Bell Service Partner if you experience any issues with your radios or the PSCS radio network. Bell will open a case for your service request. The repair cannot proceed without a Bell service case number. If required, a Return Material Authorization (RMA) will be issued to ship the radio(s) for repair.

Attached is a copy of the current Radio Repair process. For more Standard Operating Procedures, please visit the Manitoba website at https://www.gov.mb.ca/central/psc/pscs/pscs-standard-operating-procedures.html.

Warranty Information

PSEs should contact Bell's Service Desk for warranty repairs or replacement of radios and accessories. Regarding issues with radio batteries, please follow the Impres Battery Care Guidelines at https://www.gov.mb.ca/central/psc/pscs/pubs/impres-battery-care-guidelines-2.pdf first to see if the battery issues can be resolved. If the battery problem persists, please contact Bell's Service Desk.

We would like to take this opportunity to express our sincerest appreciation to all PSEs for your continued engagement and support in using the services of the new PSCS network. The network build and transition to commercial operations has been a success because of your efforts. We look forward to working together to support your emergency communication services across Manitoba.

Kind regards,

BellMTS

Support Contact Information

For PSCS and VHF network issues, equipment repair and, service requests, contact Bell's National Service Desk Monday-Friday 07:00-15:30 CDT (excluding Statutory holidays) at:

Toll Free: 1-833-551-3925

E-mail: BMRadioCC@bell.ca

Outside above business hours, calls are routed to Bell Wireless Network Operations Centre (WNOC):

- For **network** issues WNOC will create an incident ticket and provide you with the number for reference
- For **user equipment** issues use the above email address; you will receive an email receipt with the case number on the morning of the next business day with the resolution process outlined.

Radio Repairs

Date Created:	February 12, 2020
Last Updated:	October 18, 2021

Background

The user gear repair process has been established in order to provide the guidelines and processes that the PSE (Public Safety Entity) must follow in order to request to have a radio repaired.

Purpose and Scope

To establish and implement a consistent process for requests to repair radios.

Process Input

The process is prompted by a request, from a radio user, to the Bell Service Desk to report an issue with a radio.

Process Flow

1. ***Creation of Incident Ticket*** – PSE contacts Service Desk or Bell Service Partner to report an issue with a radio. The Bell Service Partner will open up a ticket with Bell Service Desk for the repair request on behalf of the PSE. Based on the information collected by Bell Service Desk an incident ticket will be created.
    a) User gear issues: Incident tickets are created by the Service Desk.
    b) Network issues: Incident tickets are created by Bell's Wireless Network Operations Centre (WNOC).
    c) Please refer to Appendix A for Bell's Service Desk contact information and hours of operation. After hours calls will be answered by Bell's Wireless Network Operation Centre who will manage network related incidents and forward user gear information to Bell's Service Desk for contact the following business day.

2. ***Incident Ticket populated*** – A ticket is updated with information provided from the Trouble Reporting Template (Appendix A).

    It is important to note, if the PSE has a **spare** to replace the radio for repair that they advise the Service Desk when reporting the incident (Appendix A). The spare must be programmed prior to

the Bell Service Partner appointment and the Service Desk will require the Tag and Serial Number of the spare radio. Once a ticket is created, the ticket number is issued and provided to the user as a reference point to have the equipment returned and assessed.

3. ***Incident Ticket issued to customer as Return Material Authorization (RMA) for portable radios*** – It is the customer's responsibility to validate warranty based on the date of purchase and manufacturer warranty period. If the customer is unsure of the warranty date, they may ask the Bell Service Desk prior to having an incident opened. If an incident is opened that requires the equipment to be sent away, Bell Service Desk will create the incident and send the customer an RMA. The RMA is to be included in the box being sent to the Bell Repair Depot and the customer will incur the associated shipping costs.

   If the product and repair is covered under the manufacturer's warranty, the defective equipment is repaired or replaced at no charge. If the radio repair is not covered under warranty, the PSE will be advised and provided with a quote after the Bell Technician completes their repair assessment. The repair assessment is billable to the customer.

4. ***Radio inhibit and uninhibit:*** If radios are sent away to be repaired, Bell will inhibit the radio prior to having it shipped. Once a radio is returned to the PSE, it is their responsibility to advise Service Desk that the equipment has been received and to uninhibit the radio.

5. ***Bell Technician or Bell Service Partner assigned*** – In the event that the radio is a mobile or installed within a vehicle/location, the PSE will have the option to attend a Bell Service Partner location or have a Technician dispatched to the location in order to troubleshoot or replace the defective piece of hardware. If the equipment is not under warranty, the PSE will be charged a PSE Equipment Testing and Repairs fee, plus travel for the equipment repair to be assessed. If possible, the equipment is reconfigured/repaired or replaced. All billable service & repairs are quoted to the PSE by Bell prior to work being completed.

6. ***Equipment replacement required*** – If the technician is unable to return the unit to a proper working condition a spare product is deployed (if available) with the defective unit being returned to the Bell Maintenance Centre.

7. ***Spare unit deployed and CI updated*** – The technician will update the Bell Service Desk with the replacement product deployed and the Asset Configuration Management System is updated to reflect the changes to the unit in service vs. spare.

8. ***Defective Equipment Received*** – The technician returns the defective equipment to the warehouse for warranty, repair, or replacement purposes.

9. ***Defective equipment returned to OEM*** – In the event that Bell is unable to complete the repairs within their facility, Bell returns the defective equipment to the manufacturer for repair or replacement as per service levels.

10. ***Repair authorized by OEM*** – The manufacturer confirms if the product in question falls under the warranty agreement in place. The manufacturer repairs or replaces the equipment and returns it to Bell.

11. ***Repaired or Replacement product received*** – The Bell warehouse receives the repaired/replacement product from the manufacturer. The product tag/serial number is verified to ensure the correct equipment has been received, and the asset configuration tool is updated. Repaired or replacement product is updated in the system and made available for use by PSE. If no spare was deployed, the product will be returned to the Bell Service Partner to be re-installed into the proper vehicle/location or to the PSE to be put back into production. If spare radio was deployed, the product is returned to PSE to be added back into their spare pool of equipment for future requirements.

12. ***Product out of warranty/unrepairable*** – If product is out of warranty, there will be a PSE Equipment Testing and Repairs fee to assess the equipment and provide a quote to have the unit repaired. The quote will be provided to the PSE for approval purposes. Once approved, authorization to proceed with repairs will be completed. Once repaired, the repaired product will be returned to Bell. Bell in turn will return the repaired unit back to the respective PSE to be used or returned to the spares pool. In the event that a spare was not available, the unit will be returned to service. In the event that the product is deemed unrepairable, Bell will inform the PSE that the defective product is unrepairable. The PSE will then decide whether they would like the equipment returned back to them or have Bell dispose of the equipment. In either case, the CI is updated and the unit will be removed from inventory.

Process for Radio Repairs

Appendix A

Bell's National Service Desk

Toll Free : 1-833-551-3925
Email : BMRadioCC@bell.ca

Bell Service Desk Hours of Operation

Monday – Friday (excluding statutory holidays) 7:00 a.m. – 3:30 p.m. CDT

After Hours Operations

After regular business hours, all calls are routed directly to Bell's Wireless Network Operations Centre (WNOC).

- For network troubles, WNOC will create an incident ticket in real-time and provide you with the incident ticket number for reference.
- For end user equipment troubles that are not urgent, please e-mail BMRadioCC@bell.ca and your case will be entered the following morning of the next business day. After the case is opened, you will receive an e-mail receipt with the case number and the above outlined process for resolution will begin.

Trouble Reporting Template

When reporting a trouble the below information needs to be populated with all required fields to ensure an efficient resolution. It is important to acknowledge if the equipment or repair is not under warranty, as per Schedule J, there is a billable PSE Equipment Testing and Repairs charge plus travel fees. If reporting over e-mail please copy and paste the below fields into the e-mail request:

- Public Safety Entity:
- Billing Address:
- Contact Name:
- Contact Number:
- Alternate contact:
- Contact email address:
- Site Name (if applicable):
- Full Mailing Address:
- Request Type: Repair
- BMR Tag Number:
- BMR LID:
- Serial Number (if available):
- Vehicle Number (if mobile):
- Is there an available spare? Yes/No
- Select a Bell Service Partner to complete the repair: Alcom (Winnipeg), Gene's (The Pas), Prairie Mobile (Winnipeg), Prairie Mobile (Brandon), Prairie Mobile (Russell)
- Would you require the technician to be dispatched to the below location address for the repair? Note travel time, repair time, and materials are all billable: Yes/No
- Address location where equipment will be repaired/installed/moved to (Vehicle ID including license plate number and Unit Number):
- Detailed Description of Trouble/Request:

Sent: Thursday, October 28, 2021 9:14 AM
Subject: 911 Services Agreement Schedule A (Rates) - 2022
Attachments: 2022 Sched A (911).pdf

Please find your updated **911 Services Agreement Schedule A** for 2022. Schedule A may be found on the last page of your 911 Services Agreement and is updated each October for the following year. This updated Schedule A replaces last year's document and outlines fees for service in 2022.

This represents a 3% overall increase from last year, directly reflecting growth in salaries and costs associated with the Next Generation (NG) 911 conversion required by the CRTC prior to the end of 2023. These NG911 changes affect all public safety communication services and not just 911.

If you have any questions please call me at (204) 729-2406.

CONFIDENTIALITY DISCLAIMER: The information transmitted is intended only for the addressee and may contain confidential, proprietary and/or privileged material. If you are not the intended recipient you are notified that disclosing, copying, distributing or taking any action in reliance on the contents of this information is strictly prohibited. If you received this in error, please contact the sender and delete or destroy this message and shred any paper copy.

1690 x 4.74 = $8,010.60

SCHEDULE A
ANNUAL FEE SCHEDULE

Annual Service Fee

1. The Community agrees to pay to the City a non-refundable Annual Service Fee police enhanced call-taking and dispatching. Said Fee will be established by the following calculation:

   Annual Service Fee = Resident Population x Base Fee

2. The Community and the City agree the population figures provided in the Manitoba Municipal Officials Guide will be used as the Resident Population to calculate the Annual Service Fee for the Community. The Community acknowledges that should a more accurate annual population figure become available during the term of this agreement, the City shall be entitled to use these figures to determine the Resident Population.

3. The Base Fee shall be established annually by the City and shall reflect the costs incurred by the City to provide and sustain the 911 Services. **The Base Fee for the 2022 calendar year $4.74 with a minimum charge of $726.67.**

4. The City shall provide the Community written notice no later than October 31st of each year of this agreement as to Annual Service Fees to become effective for the following calendar year.

5. The Community shall pay to the City the annual service fee according to the following schedule:

   (a) within sixty (60) days of commencement of this agreement if the agreement is entered after May 31st of the calendar year; and
   (b) on or before August 1st for each partial term beginning prior to May 31st and each full calendar year of the term.

Audio Recordings

6. The Community shall pay the City rates in accordance with the City of the City Fee Schedule for services outlined in paragraph 10(b) and (c) of this agreement. **The rates for the 2021 year are as follows:**

   (a) Compact Disc (CD) recording of 911 call
      (1) supplies and first 2 hours of employee time - $104.24
      (2) each additional 1/2 hour of employee time (or part thereof) - $52.12

7. The City shall provide the Community written notice no later than October 31st of each year of this agreement as to recording fees to become effective for the following calendar year.

Statistical Information

8. The fees for the City to provide statistical information is provided by the Municipal Officials Directory or shall be negotiated by the City and the Community to reflect the actual costs to the City to gather and process the data.

Subject: Share Your Christmas Greeting on CJRB Radio
Attachments: Christmas Greetings Package Oakland-Wawanesa.pdf; Boissevain CJRB 1220 Cov Map.pdf

Good afternoon, Dave, and Council members!

We are soon starting our Christmas programming on CJRB Radio and with that comes our invite to our businesses, community members and our dignitaries to share their Christmas Greetings with our listeners!

It has been another difficult year for many residents, farmers and businesses. We were all hoping COVID would have sorted itself out by now. Your words of encouragement are important to our listeners. Please consider sharing your message of hope, thankfulness and continuous community building through your Christmas Greeting.

I have attached a proposal with a few options you might be interested in. We can record your greeting with either a phone call in to Barry in the studio here at CJRB or you can record it on your phone and email it to me. It's that easy!

You are most welcome to script your own Christmas Greeting to your community. However, if you'd like some help, our Creative Team is always ready to write!

Certainly, feel free to reach out to me if you have any questions.

Thank you once again for your consideration - Have a great afternoon!

Betty

Subject: MB FUNDING OPPORTUNITIES!

Good morning,

Just wanted to pass along some great funding opportunities currently available in Manitoba. A brief overview of each is outlined below, with links to websites for more info & application forms:

Small Business Online Sales & Marketing Supports (up to $750 per entrepreneur):

Available for entrepreneurs to access professional services to move their business sales online, enhance their online services or improve online marketing. Rural businesses and Indigenous businesses in Manitoba (rural & urban) can apply. Eligible services can include graphic designers, web designers, IT supports, E-commerce set up assistance, social media set up, social content creation, video and photography. Funding through CF Manitoba and available on a first come, first serve basis.

More info at: https://cfmanitoba.ca/small-business-online-sales-and-marketing-supports

Local Initiatives Program (LIP) (up to $3,000 for eligible costs):

The purpose of the Local Initiatives Program (funded by CF Westman) is to strengthen our communities by supporting small scale- projects led by non-profit organizations and municipalities, that strive to enhance community economic development efforts and tourism. Eligible projects will contribute to the economic development of the region and target community priorities for growth and development. Partnerships are encouraged. Application deadline is November 15th.

More info at:
https://cfmanitoba.ca/images/westman/CFW_Local_Initiatives_Program_Information.pdf

Tourism and Hospitality Student Work Placement Program (up to $7,500 for each student hired):

Funded by the Government of Canada through the Student Work Placement Program, Propel offers registered Canadian businesses, start-ups and not-for-profits related to the tourism and hospitality sector a wage subsidy of up to 75% of a qualifying student's wages, to a maximum of $7,500. Students enrolled at a recognized post-secondary institution can apply for a paid position to fulfil the co-op or internship component of their program. The position being covered must be a work-integrated learning opportunity for a post-secondary student but can be accessed by businesses that cover all facets of the visitor economy: accommodations, food and beverage services, culinary, recreation, entertainment, culture, events, transportation, travel services, and more.

More info at: https://tourismhr.ca/programs-and-services/propel-student-work-placement-program/

Tourism Relief Fund (TRF) (up to $100,000 for up to 50% of eligible costs *or* fully repayable contributions up to $500,000 for up to 75% of eligible costs)

The Tourism Relief Fund, administered by Canada's regional development agencies and Innovation Science and Economic Development Canada (ISED), supports tourism businesses and organizations adapt their operations to meet public health requirements while investing in products and services to facilitate their future growth. With a budget of $500 million over two years (ending March 31, 2023), including $50 million specifically dedicated to Indigenous tourism initiatives, and $15 million for national initiatives, this fund will position Canada to be a destination of choice when domestic and international travel is once again safe by empowering tourism operators to create new or enhance existing tourism experiences and products to attract more local and domestic visitors.

More info at: https://www.canada.ca/en/prairies-economic-development/services/funding/tourism-relief-fund.html

Subject: TOURISM INNOVATION & RECOVERY FUND ANNOUNCEMENT

Tourism Innovation and Recovery Fund Announcement

Dear Industry Partners,

Earlier this year, Travel Manitoba launched its roadmap to recovery, the Manitoba Tourism Strategy, with a focus on rebuilding a resilient and thriving tourism industry. Today, we are announcing a one-time funding program to support businesses, stimulate the economy and revitalize the tourism industry.

The **Tourism Innovation and Recovery Fund** supports Travel Manitoba's goal to increase the number of market- and export-ready tourism businesses throughout the province. This new one-time fund will help Manitoba's tourism industry adapt to changing market conditions and to develop new tourism experiences that meet the evolving expectations of travellers. This fund will provide $500,000 through two funding streams:

- Experience Enhancement—eligible businesses can receive a maximum of $15,000 for up to 85% of eligible costs.
- New Experience Development—eligible businesses can receive a maximum of $25,000 for up to 85% of eligible costs.

The fund opens today and applications are due December 9, 2021, by midnight (CST).

Businesses that are eligible for this funding include Manitoba-owned and operated tourism businesses and organizations (including sole proprietorships and non-profit organizations), existing tourism operations that were financially stable and viable before the pandemic, and new start-up tourism operations.

To find out if your business project qualifies and to apply, visit our website here: **https://www.travelmanitoba.com/tourism-industry/industry-resources/tourism-innovation-recovery-fund/**.

Travel Manitoba is confident that our roadmap to recovery will revitalize the tourism industry and spur economic growth as we recover from the pandemic. You can read more or watch a video about the Manitoba Tourism Strategy here: **https://www.travelmanitoba.com/tourism-industry/industry-resources/provincial-tourism-strategy/**.

Stay well,

Colin Ferguson
President & CEO
Travel Manitoba

The Sustainable Communities Conference kicks off tomorrow!

Don't miss Canada's leading sustainability event – it starts tomorrow!

The 2021 Sustainable Communities Conference (SCC) is almost here! We're super excited to host and engage you in three days of engaging workshops, training sessions, and interactive networking spaces.

During these three days, you'll get hands-on tools and knowledge while exploring issues fundamental to building equitable, sustainable communities, including Canada's path to net-zero by 2050, and small community and nature-based solutions.

SCC 2021 starts next tomorrow, October 19. Don't miss your chance to attend! Make sure you're signed up. $250 for FCM members.

▶ REGISTER FOR THE CONFERENCE TODAY

NEWS

Federal advocacy: Big-city mayors host PM

FCM's Big City Mayors' Caucus met with Prime Minister Justin Trudeau last Wednesday to discuss municipal proposals to drive a strong, nationwide post-COVID recovery. On the agenda: creating jobs while tackling the housing affordability crisis and moving Canada closer to net-zero emissions. Throughout the day, the mayors also hosted Intergovernmental Affairs Minister Dominic Leblanc and non-partisan thought leaders with expertise in downtown and neighbourhood recovery.

New support for women leaders in your community

Reminder: Our Canadian Women in Local Leadership (CanWILL) project launched its first round of applications for Inclusive Community Initiatives (ICI). This is an opportunity for 20 to 25 communities to receive up to $10,000 each for initiatives that support women, particularly those who are underrepresented run for and remain in leadership positions in municipalities. Initiatives must be delivered in partnership with local community groups. Apply by November 5.

FCM scholarships for young women are back

FCM offers a total of seven scholarships for young women in high school, CEGEP, university and college. The are awarded to students who are active in their school's community and interested in the role of women in elected politics. This initiative supports FCM's objective of reaching gender parity in municipal councils across Canada. The deadline for applications is January 21, 2022. Please share this great opportunity in your networks.

Canada's voice of local government

Looking to tomorrow: 2021 Sustainable Communities Conference

FCM is pleased to announce the 2021 Sustainable Communities Conference was a tremendous success.

Hundreds of sustainability leaders joined in virtually for three days of interactive workshops, keynote speakers and networking sessions. It's safe to say Canadians are eager to build equitable, sustainable communities and tackle the most pressing sustainability challenges facing Canadian municipalities.

We want to extend a heartfelt thank you to all who participated in this event.

Be sure to check out FCM on Twitter (@FCM_online) to relive SCC through #FCMSCC21CCD's Twitter Moment and while you are there let us know what you've taken away from the SCC by tagging us on Twitter.

NEWS

In the news: FCM President on RCMP contract policing

Earlier this summer, a collective bargaining agreement was announced between the federal government an National Police Federation, representing RCMP officers across the country. The agreement includes a significant increase in pay for RCMP officers and retroactive pay going back to 2017, which will have a significant national financial impact on municipalities that use contract RCMP police services. FCM Presiden Joanne Vanderheyden talked about this issue with CBC.

Watershed modelling for culvert assessment

MRF Geosystems has developed state of the art solutions to address watershed management issues. The developed Watershed Model for Culvert Assessment is a hydrological model that employs GIS layers and historical weather information to assess the culverts. The objective of this model is to determine the required size of the culverts and if the current size is meeting the required size. The outcome can benefit communities by avoiding culvert failures which could cause a lot of damage.

FCM **NEWS | October 27, 2021**

Introducing PMI-WILL

This fall, we are excited to launch Partnerships for Municipal Innovation-Women in Local Leadership (PMI-WILL), our new flagship international program. Implemented in five countries in Africa and Asia, it will run for six years, and is funded by Global Affairs Canada.

PMI-WILL builds on FCM's three decades of expertise in developing and delivering projects in collaboration with Canadian municipal experts and their international counterparts. Over the years, our unique peer-to-peer approach to capacity development has yielded tangible results for women and underserved populations in Bolivia, Burkina Faso, Tunisia and Ukraine, to name a few.

While PMI-WILL is a new program, FCM's commitment to championing the voices of women in local governments, in Canada and abroad, is long-standing. Here at home, our Canadian Women in Local Leadership (CanWILL) program is supporting municipalities and local organizations working to increase gender parity on councils, while also helping make the environment more welcoming to diverse candidates.

The synergies between our national and international programs, be it among municipal experts, networks of allies and staff, are what makes FCM such an efficient and well-regarded leader in the drive to gender equality and inclusion in local government.

Please read on to find out more about PMI-WILL's goals and partners.

Our Objectives

The program focuses on two core objectives:

- Increasing women's capacity to lead in local government
- Increasing local governments' capacity to deliver inclusive, gender-responsive services

To achieve these goals, a wide range of activities will be undertaken, such as training and mentoring identifying potential women candidates for local elections, fostering networks of women leaders and male allies, equipping municipal staff with tools to promote gender equality and inclusion and strengthening local government associations to share knowledge and best practices.

Countries of operation and Canadian municipal experts

PMI-WILL is implemented in Bénin, Cambodia, Ghana, Sri Lanka and Zambia. In each country, we are partnering with national Local Government Associations (LGAs):

- Association Nationale des Communes du Bénin (ANCB)

- National League of Local Councils of the Kingdom of Cambodia (NLC)
- National Association of Local Authorities of Ghana (NALAG)
- Federation of Sri Lankan Local Government Authorities (FSLGA)
- Local Government Association of Zambia (LGAZ)

In Canada, nine municipal experts from four Provincial/Territorial Associations (PTAs) have stepped forward to form gender-balanced teams for an initial capacity assessment of the 5 overseas LGAs participating in the project. We thank representatives of the Association of Manitoba Municipalities (AMM), the Union of BC Municipalities (UBCM), the Local Government Management Association of British Columbia (LGMA) and the Union of Saskatchewan Municipalities (SUMA) for their enthusiastic response.

Involving these Canadian experts in the early stages of PMI-WILL ensures that the program will operate from the outset using FCM's peer-to-peer learning approach. Just as importantly, together they are establishing the first ties that will lead to engaging exchanges and fruitful cooperation in the years ahead.

What Next?

In the coming weeks, we will begin recruitment for municipalities and PTAs to assess the capacity of networks of elected women officials in each of the five countries. We will also issue a call for Canadian municipal partners interested in long-term involvement with PMI-WILL.

As with all of FCM's international programs, PMI-WILL's success depends on forging dynamic, bi-lateral relationships between representatives of Canadian municipalities and local partners. We look forward to supporting and guiding those relationships, as well as developing new resources, sharing best practices and, of course, reporting back on our joint achievements.

PMI-WILL's call for expressions of interest for long-term involvement will be posted here. Hear about it first by following FCM's social media channels:

Subject: Public Consultation: Access and Privacy Regulation

Good afternoon,

We are writing to advise that proposed amendments to the Access and Privacy Regulation are now posted on the Manitoba Regulatory Public Consultation Portal. The proposed amendments to the Regulation are required as a result of amendments to the Freedom of Information and Protection of Privacy Act (FIPPA), and relate to the removal of the prescribed application and complaint forms; the definition of "applicants who are associated;" and breach notification.

To view, learn more, and comment on the proposed changes to the Regulation, please visit the Manitoba Regulatory Consultation Portal at https://reg.gov.mb.ca. If you wish to provide comments on the proposed amendments, you will need to register on the portal; please note that if you try to access the portal using Internet Explorer you will experience issues and limited functionality, as Microsoft no longer supports this browser. The deadline for commenting on the proposed amendments is Monday December 6, 2021.

The amendments to the Act come into force on January 1, 2022. They can be viewed online at https://web2.gov.mb.ca/laws/statutes/2021/c04321e.php.

IPPS will be hosting information sessions on the amendments to the Act and Regulation in November and December, as well as updating our resource materials. Invitations to join a training session will be sent out shortly.

If you have any questions regarding the amendments to the Act or the Regulation, please do not hesitate to contact our office.

October 2021 Newsletter

Manitoba Association of Watersheds

The Manitoba Association of Watersheds (MAW) is pleased to announce the October edition of the MAW monthly digital newsletter! This month's feature is the Inter-Mountain Watershed District.

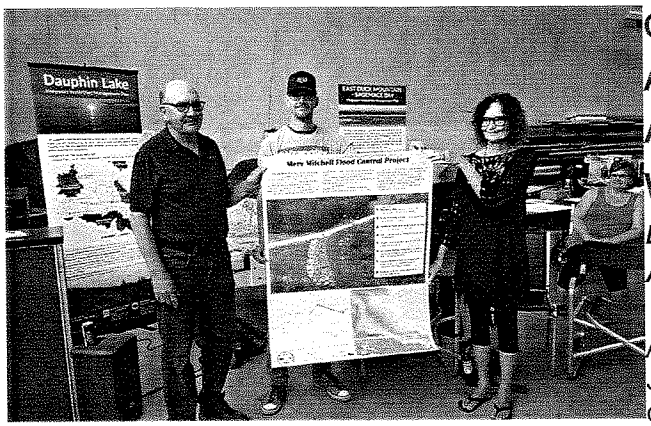
Each MAW monthly newsletter edition will highlight one of the fourteen Watershed Districts located throughout Manitoba. All fourteen of the Watershed Districts are dedicated in protecting Manitoba's soil, water, habitat, and climate and MAW will be sharing new and current project initiatives, news, events and much more.

Inter-Mountain Watershed District Announces New Website

The Inter-Mountain Watershed District (IMWD) is pleased to announce their new

website! A new website was needed after the recent amalgamation of the Turtle River Watershed and Intermountain Conservation Districts. The new website includes details on programming, LiDAR (the newest and one of the largest endeavours to date), integrated watershed management planning, education initiatives and more.

Read the Full News Release Here

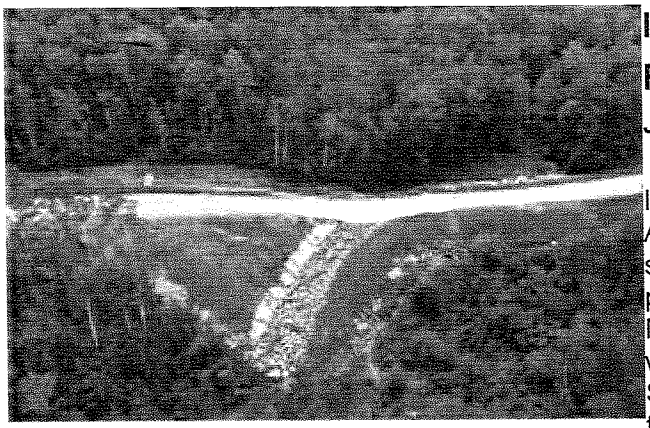


Challenges & Opportunities Arising from the Amalgamation of Two Watershed Districts

Brittany Lynn-Korotash, Special Assistant for Reorganization, IMWD

All Watershed Districts are aware of January 1st, 2020 as the day we officially aligned to watershed boundaries. For the Inter-Mountain Watershed District, this marked the beginning of a challenge unique to the program – operating one Watershed District with two distinct mandates.

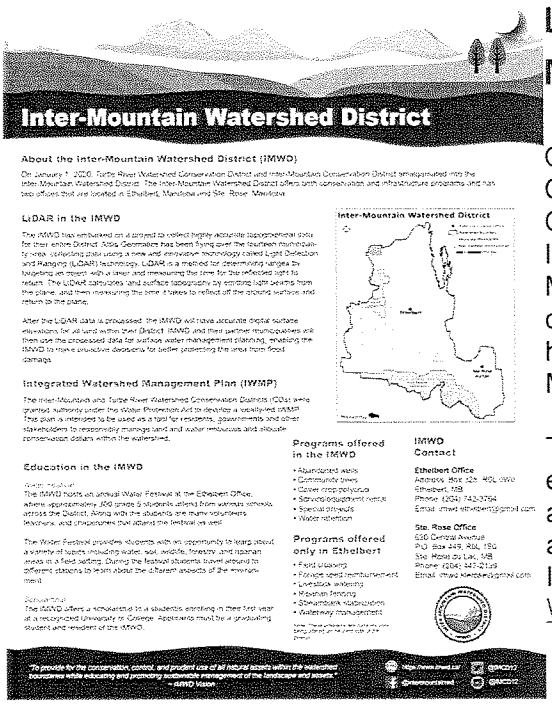
Combining the Intermountain Conservation District and Turtle River Watershed Conservation District was an obvious choice since both districts co-developed the Dauphin Lake Integrated Watershed Management Plan. That is where the simplicity ended. Read more.



Is Your Land Prone to Flooding and Erosion?

Jessa McNabb, Resource Technician

In the spring of 2020 while at Assiniboine Community College studying for the Land and Water program, I partnered with the Inter-Mountain Watershed District (IMWD) while working on my capstone project. Since water retention was a major focus point for them, I decided to do my project on "Dry Dams". Once I was finished school, I was able to secure a technician job with IMWD. The following is a summary brochure that I prepared for my Capstone Project; Through tours, education, and research the district was able to find dry dams as the best water retention strategy'. Read more.



Learn All About the Inter-Mountain Watershed District

On January 1, 2020, Turtle River Watershed Conservation District and Intermountain Conservation District amalgamated into the Inter-Mountain Watershed District. The Inter-Mountain Watershed District offers both conservation and infrastructure programs and has two offices that are located in Ethelbert, Manitoba and Ste. Rose, Manitoba.

The Inter-Mountain Watershed District has embarked on a project to collect highly accurate topographical data for their entire area. Learn more by downloading the Infographic or visit the Inter-Mountain Watershed District website.

2021 Manitoba Watersheds Conference

Presented by the Manitoba Association of Watersheds

Keystone Centre | Brandon, Manitoba | December 6-8, 2021

Manitoba Association of Watersheds

The 2021 Manitoba Watersheds Conference agenda is now available for download. The agenda includes a detailed schedule featuring several keynote sessions, Watershed District spotlights, opportunities to network and visit tradeshow booths and more. Visit the Manitoba Association of Watersheds website to learn more about the upcoming 2021 Manitoba Watersheds Conference or download a copy of the agenda below.

Download the Agenda Here

The 2021 Manitoba Watersheds Conference is pleased to showcase several speakers that will be presenting on a wide range of topics including partnerships, rebranding, water planning tools, climate, hydrology, and much more. To learn about these speakers scroll through the email below or visit the Manitoba Association of Watersheds website.

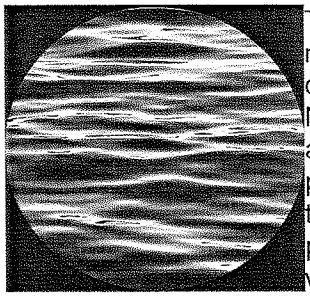
This year's theme *Coming Together, Celebrating Success* focuses on bringing environmentally passionate people together and giving them the opportunity to share, learn and educate one another on issues that matter, and that have a direct, and positive impact in communities throughout Manitoba.

Prairie Riparian Areas: Opportunities and Challenges for Production and Conservation

Dr. Alex Koiter's speaking session, entitled *"Prairie Riparian Areas: Opportunities and Challenges for Production and Conservation"* will focus on how the unique climate and hydrology of the prairies effects how we see, use, and manage riparian areas for production, conservation of habitat, mitigating extreme moisture events, and reducing nutrient and sediment pollution.

To learn about Dr. Alex Koiter's work visit his website.

Centre for Indigenous Environmental Resources (CIER) Workshop



The Centre for Indigenous Environmental Resources (CIER) is a national First Nation directed environmental non-profit organisation. CIER developed a watershed planning tool for First Nations and will be presenting the watershed planning tool to the attendees of the 2021 Manitoba Watersheds Conference. The presentation will explain the framework, guidebooks and training that comes within the tool. CIER will also explain how the tool provides guidance for First Nations who want to take action on watershed planning.

2021 Manitoba Watershed Conference Registration

Register today to connect and network with hundreds of innovators, landowners and industry specialists involved in environmental conservation and climate change that are directly shaping Manitoba's environmental landscape for the better!

Subject: AMM General Insurance Program - New Infrastructure Grant Opportunity
Attachments: 21-WCF- AMM-Infra Draw.PDF

Good Afternoon,

The Western Financial Group Communities Foundation is celebrating its 20th anniversary of donating to communities across Canada. To express our gratitude to everyone who has been part of this journey, the Communities Foundation is pleased to announce the first inaugural Association of Manitoba Municipalities Infrastructure Grant through our Western Financial Group Insurance Solutions division. Our Group Insurance Solutions Division takes great pride in administering the AMM General Insurance Program to municipalities, towns & cities, in the province of Manitoba for over 40 years. The $5,000 grant will be donated to one municipality by random draw for a renovation or build of a publicly owned asset to improve their community.

Applications will be accepted until November 30th, 2021 and the winner will be drawn on December 15th, 2021.

If you would like to learn more about the Communities Foundation, please visit westerngives.com.

The attachment has a link to the application.

MUNICIPAL RELATIONS

Important Notice to
All Elected Officials and Chief Administrative Officers

CONSULTATION ON MODERNIZATION OF THE MUNICIPAL BOARD PLANNING APPEALS PROCESS

Manitoba is modernizing planning appeals by establishing a single consistent province-wide appeal process to be used only when existing municipal processes are unable to meet the needs of citizens, landowners, and development applicants.

Planning appeals are fundamental to open and fair planning systems and are necessary for upholding transparent and accountable planning decisions. The new changes to Manitoba's planning framework give landowners and applicants the right to appeal Council or planning board decisions on development proposals and missed timelines to the Municipal Board where they are unable to work out a mutually agreeable path forward. In the case of appeals that do reach the Municipal Board, modernized planning appeals processes will be in place to ensure smooth and timely resolutions. Municipalities and planning districts will continue to exercise their authority in establishing local by-laws, standards and requirements. All planning appeals will be evidence based, which benefits all parties, including municipalities.

In January 2021, the Department of Municipal Relations established a multi-stakeholder Working Group to get advice on implementing new changes to the Manitoba planning framework. The Association of Manitoba Municipalities is a key member of this working group, and their informed contributions have been appreciated. The Department is committed to continuing this dialogue with stakeholders as new processes are implemented, including input on clear rules and procedures for planning appeals to ensure an efficient appeals system that delivers timely results and contributes to growth in our province and our communities.

EngageMB Consultation
Manitoba will be running an online consultation from October 20, 2021 until November 10, 2021 on the EngageMB website: https://engagemb.ca/municipal-appeal-process

We want to hear about your experience with the Manitoba Municipal Board and the Board's current appeals process. Your feedback will help inform our approach as we modernize the planning appeals process to create an efficient appeals system that provides all parties with clear, transparent and accountable processes, and timely results.

There are two steps to participate in this consultation:

- Read the Modernizing the Appeals Process Discussion Paper.
- Complete the survey to provide your feedback on the upcoming modernization of the Municipal Board planning appeals process.

If you have questions or require further information, please contact your regional Community Planning office, or call the Winnipeg Office at (204) 945-2150.

Bulletin #2021-55

MUNICIPAL RELATIONS

Important Notice to
All Elected Officials and Chief Administrative Officers

COVID-19 UPDATE FOR MUNICIPALITIES

Municipal Relations advises that changes to the COVID-19 public health orders took effect at **12:01am** on **Tuesday October 26, 2021** and will continue to be in effect until **12:01am** on **Tuesday November 16, 2021**. The current public health orders may be viewed by visiting: https://www.gov.mb.ca/covid19/prs/index.html. Manitoba remains at the **ORANGE: Restricted** level on the pandemic response system.

The new public health orders removed capacity restrictions for retail businesses in select municipalities. All other public health orders issued on October 5, 2021, as outlined in Bulletin #2021-52, remain unchanged.

Capacity Limits for Retail Businesses: Capacity limits for retail businesses are 100 per cent in the Interlake-Eastern, Northern, Prairie Mountain Health and the Winnipeg capital region. Retail capacity limits in the RM of Cartier, RM of Headingley, RM of Macdonald, RM of Ritchot, Town of Niverville, RM of St. Francois Xavier, and RM of Taché have also been raised to 100 per cent. Retail capacity limits in all other municipalities in Southern Health-Santé Sud remain at 50 per cent.

Additional information and general guidance about the impact of COVID-19 on municipal operations has been provided in previous bulletins to municipalities. These bulletins may be viewed on the COVID-19 Bulletin page in Manitoba Municipalities Online (MMO) at: https://www.gov.mb.ca/mr/mfas/bulletins.html.

If you have additional questions, please contact a Municipal Services Officer, email mrmaas@gov.mb.ca, or phone 204-945-2572.

COMMUNITY PLANNING BRANCH

Important Notice to all Chief Administrative Officers And Elected Officials

Recent Amendments to The Planning Act and City of Winnipeg Charter Act

Most changes to the planning system introduced within the Planning Amendment and City of Winnipeg Charter Amendment Act, which received Royal Assent and became law on May 20, 2021 have been proclaimed and are in force as of October 29, 2021.

The legislation creates new rights of appeal for applicants on certain planning applications and extends the right to appeal zoning decisions to include citizens of Winnipeg. The amendments will provide greater transparency and accountability, as planning authorities are now required to provide written reasons for rejecting a planning application. The time to file an appeal has been set at 14 days to further reduce delays to development.

The legislation also sets out service standards for municipalities and planning districts to process planning applications across the province. This will provide greater certainty to all stakeholders how long the planning process will take, regardless of location in the province and will ensure a consistent and timely decision making process is in place. Application forms and notices of decision will need to be updated by municipalities to reflect the newly legislated timelines for decision making and for filing appeals.

The Department of Municipal Relations is committed to continued support in implementing the legislation through clear rules and procedures. Flow charts, fact sheets, Questions and Answers and a Guide to the legislation are found in the quick links section on the Department's website https://www.gov.mb.ca/mr/index.html.

Additional training and resource materials are being prepared with the assistance of professional consulting services. A comprehensive Planning Handbook will provide an authoritative reference to The Planning Act. New streamlined procedures for planning appeals at the Municipal Board are being developed. Both projects involve significant municipal and stakeholder involvement and are expected to be completed in Spring 2022. Any suggestions you may have are welcomed.

If you have questions or require further information, please contact your regional Community Planning office, or call the Winnipeg Office at (204) 945-2150. The Department will be sending you an invitation to an information webinar to address your questions regarding proclamation.

Subject: Event Announcement: Analytical Measurements for Water, 25 Nov 2021

MWWA

Better Water for a Better World.

Dear Drew Wilton,

You are invited to register for the following event:

Analytical Measurements for Water

When:

1. 25 Nov 2021, 10:00 AM 11:30 AM (CST)
2. 26 Nov 2021, 10:00 AM 11:30 AM (CST)

Where: Virtual Training (Zoom)

Will you be attending?

Register | Not attending

EVENT DETAILS:

Analytical Measurements for Water:

Two (2) 1.5 Hour sessions (3 Hours Total)
November 25 & 26 10:00am – 11:30am CDT

CEU's: 0.3

A fundamental analytical course for drinking and wastewater operators to understand the basics of key analytical parameters throughout the plant. For each analytical measuring technology, the training focuses on the principles of operation, typical use cases in a water or wastewater treatment plant, troubleshooting, installation influences, handling error codes and possible process issues and challenges. The basics of calibration for each technology and key fundamentals that can influence these calibrations are also discussed.

Outline

- Analytical measurements for water
- pH/ORP
- Disinfection (total and free chlorine)
- Turbidity (inlet, outlet)
- Analytical measurements for wastewater
- Dissolved oxygen
- TSS/MLSS (aeration. sludge)
- Disinfection (chlorine, UV)
- Ammonia/Phosphorous
- (colorimetric, Ion selective)
- Troubleshooting basics
- Installation influences
- Process influences on
- Contactless analytical measurement

Trainer: Scott Cybulski

Scott Cybulski started with Endress+Hauser Canada as a Field Service Technician for 6 years ago. In this first role, Scott spent a great deal of time embedded at customer sites with large E+H install bases to ensure operational success over extended periods. In Scott's current role, as an Application Support Specialist specializing in the Liquid Analysis portfolio, he provides advanced technical support to our service team and guides

our sales associates in selecting the correct devices to suit your application.

All attendees must have their own computer with audio and video capabilities to participate.

Best regards,

Manitoba Water & Wastewater Association

Subject: Event Announcement: Fundamentals of Pumping; Centrifugal pump basics, Hydraulics Applications & Troubleshooting, 23 Nov 2021

MWWA

Better Water for a Better World.

Dear Drew Wilton,
You are invited to the following event:

Fundamentals of Pumping; Centrifugal pump basics, Hydraulics Applications & Troubleshooting

When:

1. 23 Nov 2021, 8:30 AM 10:30 AM (CST)
2. 24 Nov 2021, 8:30 AM 10:30 AM (CST)

Where: Virtual Event

Will you be attending?

Register | Not attending

EVENT DETAILS:

Fundamentals of Pumping

Centrifugal pump basics, Hydraulics Applications & Troubleshooting

This course will be offered over two morning sessions November 23 & 24, 2021 @ 8:30 - 10:30 AM.

You must attend both sessions to receive credit.

CEU Credits: 0.4

Course instructor(s): Stefan Fediw; Allan Miskolczi - John Brooks Co. Ltd.

Upon the successful completion of this course, the student will be able to:

1. Recognize and describe the functionality of all the main components of a centrifugal pump;
2. Identify and functionally classify several different types of centrifugal pumps
3. Interpret and explain the information presented with a pump performance curve:
    - Head and flow
    - Efficiency
    - Power consumption
    - Net positive head required (NPSHr)
    - Operating limitations (flow, head, speed, and NPSHa)
4. Calculate hydraulic system resistance – Total Dynamic Head
5. Develop system curves and select appropriate pump and power requirements
6. Perform NPSH (Net Positive Suction Head) calculations in order to prevent cavitation
7. Predict the outcome of a system while multiple pumps are operation
8. Analyze pump / hydraulic troubleshooting.

Instructor Bio's

Stefan Fediw:

U of W. Ont, B Eng, 1996; P Eng 2001;

JMP Engineering (consulting engineer), London ON, 2 yrs;

Gorman Rupp Canada (applications engineer), ST Thomas ON, 15 yrs;
Fanshawe College, ST Thomas (part time) 4 yrs (millwright training-course development);

John Brooks Canada; 4 yrs;
Allan Miskolczi:

Canadian Armed Forces – 86-93; leadership and trades training

U of S, BA, 1992
Admin assistant MP 3 yrs,

Wajax/Kinecor (tech pump sales) 7yrs

Smart Turner Pumps 2 yrs
National Process 1 yrs

John Brooks (pump/filtration tech sales) 10 yrs

Best regards,
Manitoba Water & Wastewater Association
